

Leaders in Bacterial Control

Introducing BioCote[®] protected products

www.biocote.com

For sustainable, hygienic environments

BioCote® protection

BioCote Ltd is the market leader in providing built-in antimicrobial surface protection.

BioCote® technology utilises the power of silver, a safe, natural antimicrobial. BioCote® reduces levels of bacteria and mould on the surface of products making them cleaner, safer and more hygienic to use.

BioCote® protected products are ideal for environments where hygiene is important, such as hospitals, care homes, schools, restaurants, leisure centres and other public buildings.

How is BioCote® applied?

BioCote® is incorporated into products at the time of manufacture, it cannot be added retrospectively. BioCote® can be engineered into plastics, paints, lacquers, fabrics and papers, making it possible to produce a wide variety of antimicrobial products.

BioCote® is a sustainable technology, as it provides constant built-in protection for the expected lifetime of a product. Its antimicrobial performance does not deteriorate over time, nor does it need to be reapplied.

As the need for hygienic environments increases, the number of companies using BioCote® technology continues to grow, offering millions of people protection against harmful bacteria and mould everyday.

BioCote® partners

PARTNERS

Advanced Hygienic Contracting

- PVC wall cladding systems
- Fully-sealed gasket trims and thermofold corners to ensure precise fit into door and window apertures
- Fully bonded application method

Allgood

- Door handles, bathroom fittings, grab rails & other ironmongery components
- Advanced, high resistance surface coating, applied through a "heat-seal, oven-baked" process

Alvo

- Standard and bespoke ceiling and wall cladding for theatres
- Manufactured from powder-coated stainless steel, mild steel and aluminium materials.

Burgess

- Advanced metal suspended ceiling systems
- Easily installed, removed and replaced

Comark

- High quality electronic measurement instruments
- Range includes precision thermometers, pressure, airflow, humidity and pH meters, data loggers and wireless monitoring systems
- Supplying to the food industry, scientific research, laboratories, HVAC and refrigeration

Composite Fibreglass Mouldings

- Nobile panels
- Hygienic alternative to standard tiles
- Grout line incorporated as part of panel
- Easy to install, clean and do not discolour

Contour Casings

- Radiator covers and pipe boxing
- Unique and hygienic design
- Easily removable cover for cleaning and maintenance

Deb

- FloraFree hand hygiene products with tailor-made dispensing systems
- Designed specifically for the food industry
- BioCote® incorporated in dispenser

Dyson

- Dyson Airblade™ hand dryer
- Dries hands completely in just 10 seconds
- Uses up to 80% less energy than other warm air hand dryers
- The only truly hygienic hand dryer as certified by NSF International

Easibind

- XtraProtect™ wipe clean, long life printed polymers for everyday applications
- Stationery : Menus, Brochures, Folders, Wallets and Binders
- Information : Signs, Posters, Display, Labels and Cards
- Packaging : Sleeves, Cartons, Wraps, Tickets and Tags

Electrium

- Crabtree white moulded electrical wiring accessories
- Comprehensive range of products including light switches, fused connection units, 13 amp switched sockets and rocker grid switches

Enterprise Stationery

- High quality healthcare filing solutions
- Products include: case note folders, x-ray envelopes, manilla pockets, gusset envelopes, board back pockets and file covers

Environmental Hygiene Products Ltd

- Foot operated clinical and domestic waste sackholders
- 20 to 90 litres in capacity
- Available in free-standing, solid body, removable body and front opening designs

Europackaging

- Plastic disposables
- Products include: disposable gloves, aprons, clinical waste sacks and refuse sacks

Exitile

- Access panels
- Suitable for all types of ceiling and wall systems
- Easy access into ceiling voids and wall cavities

Fetim

- F-PRO antimicrobial shelving is the only system of proven strength, tested to BS 4875-7
- Easy to install and adjust
- Brackets and uprights are unbeatable in strength and durability
- Shelves finished in a light and chip-resistant powder coating

ILES

- High quality dimmer light switches • Easy to install, with reduced wiring
- Neon illumination makes switches more visible and easy to locate in low light conditions
- Ideal for partially sighted people

Inducoat

- B2 antimicrobial paint
- Matt finish, one coat application
- Distributed exclusively via Sheffield Insulations

Ingersoll Rand

- HandPunch® time and attendance system
- Stops employees from clocking-in and out for one another
- Uses size and shape of hands to verify identity
- Simple to use and accurate • Saves on administrative costs

James Cropper

- Docugard® antimicrobial papers and boards
- Made-to-order options in specific colours, weights and sizes
- Products include: medical filing and stationery to packaging solutions

PARTNERS

Link 51 (Storage Products)

- Shelving and Storage Solutions
- Products include: Storage for Digital & Paper Records, Linen, Ward Consumables, Secure medicine cabinets

Link Lockers

- Personal storage solutions
- NHS Supply Chain approved supplier
- NHS purchasing supplier

Malvestio

- Healthcare bed range sold into the Italian marketplace
- Product range includes: Tam2 and Omega beds

Mira

- Flight and Flight Low range of Shower Trays
- 90mm and 40mm (Low) height trays available
- Unique sandwich construction makes flight the toughest shower tray on the market
- Optional Riser kits and upstands enable easy installation in all situations

Mosaic

- Fabrics specifically designed for the healthcare market
- Suitable for bed linen, soft furnishings, cubicle and window curtains
- Permanently flame retardant to NHS specifications
- Can be washed to 71 °C
- Antimicrobial efficacy proven after 100 washes

Pall Medical

- Pall-Aquasafe™ Water Filters
- Instantaneous, validated, clinical barrier to the passage of waterborne organisms, such as Legionella spp.
- Quick connection to taps and showers to ensure immediate waterborne microbial protection

Pall-Aquasafe is a trademark of Pall Corporation

Priorclave

- Low-pressure autoclaves (up to 2.5 Bar)
- Features include: low loading heights, Independent Thermal Interlocks, media warming and vacuum-assisted cooling
- Inhibits bacterial growth on both internal and external surfaces

Protomed

- Patented Biodose™ Monitored Dosage System
- Allows liquid medicines to be pre-packed alongside tablets and capsules
- Provides an intelligent system for organising & managing medication regimes

Rada

- Unatherm-3 range of combined surgical taps and thermostatic mixing valves
- TMV3 approved
- Easy to install and simple to maintain
- Panel and surface mounted options

Safety Medical Solutions Limited

- Metal clad extension leads
- Incorporate BioCote® protected 13A socket and stainless steel body
- Various lead lengths available with moulded or rewirable 13A fused plugs

PARTNERS

Sidhil

- Healthcare furniture suitable for acute, primary and community care needs
- Products include hospital beds and cots, over-bed tables, side tables, trolleys, hoists, commodes, primary care couches and community care beds

Silent Gliss

- Hospital curtain track systems
- Aesthetically and technically superior
- BioCote® is applied as an antimicrobial finish to the White 6101 cubicle track

Stuart

- Stuart range of bench top science equipment, including hotplates and stirrers, rockers, shakers, mixers and incubators and water stills
- Meets the needs of all types of laboratory, including life science and pharmaceutical labs

Suspended Ceilings Restoration Limited

- A unique antimicrobial coating for the restoration of existing suspended ceilings
- Returns ceiling tiles to "like new" condition
- Removes water stains, grime and mould

TDSL

- Doors and doorsets
- Meet all fire, acoustic, x-ray and radiation protection levels
- Specialists in healthcare and education projects

Tenza

- tenzaguard™ antimicrobial labels and films
- Labels developed specifically with the pharmaceutical, dispensary and other "hygienic labelling" sectors in mind
- Films ideal as a hygienic covering

Timbmet

- Fully finished timber manufacturing services
- Wide range of timber profiles in stock, including handrails and skirtings in Oak, Red Hardwood and Western Red Cedar
- Bespoke profiles available to order

Vertika

- Antimicrobial Impala wand operated vertical window blind system
- Designed to answer the demands of the commercial and public markets
- Argento, Bioflex and wipeable LUNA 100% polyester fabrics with FR properties
- Antiligature feature

Vocera

- Vocera Communications devices
- The only wearable, hands-free, instant voice communication systems
- Combines Wi-Fi, voice over IP and speech recognition technologies
- Rapid communication in lightweight devices

Waterlogic

- Mains-fed, point-of-use drinking water dispensing and purifying systems
- BioCote® complements Waterlogic's existing UV purification technology
- Offers the highest level of water hygiene to customers
